I am an experienced product and lifestyle photographer with 10+ years of experience working in various industries. I have collaborated with various companies to create many great images. I also took an online marketing course to get more skills to utilize my photography skill for the business. Photography is my life.

Taking a picture is like breathing to me. So, my principle is to take a picture that can send a message to anyone who sees it.

Experience

Freelance Photographer

2014 - present

- Worked as a photographer for the summer school festival, in which the photos has been published in the school magazine
- Hired as a wedding photographer for a family wedding and handling the editing, designing, and composition of the wedding photo book
- Received award for sending a photo of the local accident to the local newspaper, and the photo was printed on the first page of the local issue
- Recommended by the local newspaper publisher to an advertisement company, Studio Shodwe, and work as an intern for six months

Studio Shodwe

2015 - 2018

- Picked as one of the members of the photographer team for a photography session of the local celebrity and model, Olivia Wilson
- Working on the faucet product promotion campaign for website and magazine advertisement that resulted in a 5-star rating for the promoted product
- Studied the apartment photography that improves the photography result and reduce the time needed to take a project of apartment photography ads by 20%
